Me and my fiancé have been preparing for our trip to China this Fall and it's been rather reckless. It's the first time we are leaving the States and this both put a lot of anxiety on the table. We've always been fascinated by the Far East culture and planning this trip has been extremely exciting. However, there's so many things that we were a little bit worried about.

I saw this book the other day and said why not. I can safely say that I do not regret my purchase. This guide is filled with a lot of useful information, especially the section on common scams you might bump into. There's a whole list of a bunch of different scams that I feel like I would have personally fell for. Now, with this knowledge in my head I feel much more confident that my trip to China will go a smooth as a kite!

Great for someone interested in traveling to China!

By Ryan B

Tim's book on traveling in China safely is an excellent companion to any new traveler. Inside I learned the types of Chinese scams to watch for and how to handle them. He also explains the cultural differences to be aware of like no tipping , picture taking, or showing up late. Those are all very rude to the Chinese. My favorite part was his basic language breakdown of Mandarin. I've heard before that Mandarin is one of the hardest languages to learn since it's a tonal language. Luckily Mr. Teller, concisely explains the different tones in Mandarin. Then he follows this up with a list of popular words and phrases and there corresponding pronunciation. Overall I really liked Tim's book and can't wait to take my own trip to China!
