It's a fun thing to flip through but not really a practical ...

By Heather Fulk

I just graduated from nursing school and I got this book to, more or less, quiz myself. Some of the symptoms are difficult to search unless you know exactly how it is listed in the book. It's a fun thing to flip through but not really a practical book for diagnosis.

0 of 0 people found the following review helpful.

S/S... a great go to for any nurse!

By Nurse192

Excellent resource for any nurse!

2 of 3 people found the following review helpful.

A Worthwhile Book from a Well-respected Publisher

By Gottlob

I really haven't had time to get deeply into it yet, but from a quick perusal, and considering my knowledge of LWW medical and nursing textbooks, it clearly merits 5 stars. My only criticism of the LWW books I have used is sloppy proof reading; however, that's not enough to take a star away.
