So by doing this, be a good viewers now!

IT'S ALL IN THE CARDS BY CHITA LAWRENCE PDF

Tarot reading is an ancient tradition that is both difficult and demanding, requiring years of study and practice. But now, anyone can master the art of card-reading in just minutes--using an ordinary deck of cards...and this simple method practiced by five generations of Russian fortune-tellers. Easy-to-find and easy-to-use, standard playing cards are the perfect alternative to the Tarot. In this step-by-step handbook, author Chita St. Lawrence shares the secrets passed down through generations of Russian fortune-tellers. This simple, hands-on approach includes clear descriptions of the four suits, the individual cards and what they symbolize. It provides fully illustrated instructions for layouts and offers a variety of sample readings. Best of all, there's a handy quick-reference chart for faster, more efficient readings. In no time at all, anyone can master the art of card-reading--and be able to predict the future of: * Love

- * Career
 - * Friendship
 - * Children
 - * Goals
 - * Conflict
 - s * Travel
 - * Decisions
 - * Rivalries
 - * Finances
 - * Health
 - * Dreams
- And more!

Simple and straight to the point

By A Customer

My grandmother used to read cards - she wouldn't read for anyone except for me and my sister. And even when she did read, I knew she only mentioned the good. She never taught me how though. I think that she wanted to protect me - not wanting me to know of anything bad that would happen. I love her for that. She recently passed and since then, I have felt this unexplainable connection... I've always believed in the 'paranormal', these unexplainable things that happen to us. Those of us who are open and accepting- well, we encounter it (I think notice would better describe it) much more often than those who do not believe.

Well, I decided to see what I could find as far as books are concerned. I bought the book and found it amazing that although the types of spreads Chita uses and describes are completely different than those of my grandmother's, the cards I do remember the meanings to match perfectly! The book is not the end all for the craft, for the serious readers/students much more learning and intuition development is in the road ahead. I would definitely recommend this book as a good starting point. My first reading using Chita's layouts and interpretations was undeniably accurate.

Buy the book, and keep an open mind!

A Great Addition to Your Collection

By WandaJ

I had purchased this booklet a few months back, and I'm glad I did. I cannot believe how amazingly accurate the readings are. The directions are very easy to follow, and the interpretations of the cards are very simple. I read tarot cards on a professional level, but I find that reading with playing cards, following Ms. St. Lawrence's instructions, are much more comprehensive. Unlike the tarot cards, where you can interpret the cards in many different ways (thereby confusing the seeker to high heaven), there is only one "cut & dry" way to interpret with playing cards -- and your readings "come to pass" within a 2- to 4-week period (on a personal level, this is what I've seen). If you enjoy reading as a means for self-discovery, or on a professional basis, this is the book for you! I highly recommend it!!
