Solid Material

By sss2184

This is a solid GMAT prep book and will help you improve your verbal score. The questions are very representative of real GMAT questions. The sentence correction questions, in particular, are very GMAT-like in tone, structure and content. But if you are mainly looking for "hard" questions -- then the advanced GMAT book might be a better option.

Great Book.

By G. pande

It's a good book. I used the Barron's review book as well as this one and I scored over 85 percent in my GMAT English section.
