Marvel's scariest are back!

By BlueStar

Morbius, the Werewolf by night, the Living Mummy, and the Manphibian return along with Elsa Bloodstone in the new Legion of Monsters! Morbius and the gang run a monster police of sorts, rounding up the bad monsters. However, elsewhere in the U.K., Bloodstone is chasing down a giant monster murderer who has been devouring humans. She runs across Morbius and the others and it's up to the lot of them to track down the black magic user that had a mind control over the giant murdering monster.

This first issue was 2 parts funny and 1 part gore and action. The art was okay at best and the writing was done pretty good with some funny scenes in there and the story's just beginning. It's nice to see these guys back in the comics and it's off to a good start at least. Let's see if it gets any better!
