## About the Author

Not Happy with your current results? Then let Mr.Green help you Increase the Quality and Amount of Bud in your Grow Rooms. His experience began in 1990 under Supervision of University Professors who had developed the Hydroponic Marijuana Nutrient Formula we use today. Over the years he discovered more ways to improve the methods he learned... As a result he wrote a book in 2010 called "Marijuana Mass Production Made Easy" which contains Instructions and Blueprints of his basement (Cover Photo) which produced 200 lbs a year. Then in 2015 he wrote a book called "Medical Marijuana Made Easy" which is a Guide to Avoiding Detection, and Growing 4 lbs per 1000w light for personal use. Both books (on Amazon.com) have valuable information for all growers, and contain the Nutrient Formula from University of British Columbia. Thanks to Mr. Green now you can Grow the Highest Quality Marijuana at Home, Without Spraying Pesticides on Your Plants. For more info visit [www.GrowBCBud.com](http://www.GrowBCBud.com)

Most helpful customer reviews

2 of 3 people found the following review helpful.

The worst thing was the recommendation of the use of Kelp

By Steven Linder

There's absolutely nothing about this book that will lead to "Medical (grade) Marihuana". No attempt to remove the sediment of the low grade fertilizer materials. The worst thing was the recommendation of the use of Kelp, to augment the harvest. Kelp contains appreciable Chloride ion which accumulates in the leaf. Product thus smoked must create "Dioxins" upon combustion. These books are bunk.

Easy read that will have you ready to grow.....promise!

By Amazon Customer

Don't be fooled by the easy going appearance of this book. This book is for the grower who is ready to get growing immediately. The author provides straight forward information that can have the novice up and ready to grow in no time at all. It's worth the money for the invaluable information inside, give it a try an I promise you won't be disappointed.
