Eden is a Halfling. Part human, part wolf. An outcast in the shifter community. Being different doesn't bother her—much. She just wished that her best friend and sexy alpha werewolf Xander would notice her. When her and Xander are put in danger, getting Xander's attention is the least of her worries. Now it's survival time. And if she can will her life include Xander by her side?

Xander must claim a mate by his birthday. He's already found a woman he craves, but Eden is forbidden. When a betrayal puts them in peril, he vows to protect Eden with his life. But being so close to her presents a temptation he can't fight. Will he give into his desire and put her in more danger or walk away from the only woman he'll ever love?

She Can't Be...But She Is

By MHOON1

This is an interesting, exciting, intense read. Prejudice is keeping her life in danger. Xander won't allow himself to mate with Eden because she is a halfling. But life and dire situations have a way of making you decide who and what's really important. Enjoy I did. An ARC was given to me by the author for an honest review.

3 of 3 people found the following review helpful.

Packed full of Excitement and Danger. I loved it

By Michelle Balensiefen

This book was very exciting and intense There was so much prejudice and danger all around. Xander would not allow himself to mate with Eden because she is not considered a full shifter and is known as a halfling. But when he found out what his mother attempted that changed his reasoning. The hunters keep tracking them and because of the danger they were in caused him to realize what's really important. They found help in an unexpected source. This book was packed full of excitement and danger. I loved the person that Eden was and how she grew throughout the book and fought for herself and those she loved. An ARC was given to me by the author for an honest review

shifters, hunters, evil experiments - this book has it all

By Christine Holmes

This is a great book!!. Xander is a pureblood wolf shifter from Sanctuary who is in love with his best friend's half sister. But he can never claim her for her own safety. His parents and the elite would kill her for not

being pure enough to shift. Thus starts this saga. Human hunters trap the pair and take them to a facility where shifters are experimented on. Very exciting and fast moving, this tale takes us across North America, with chases, battles and split family loyalties. Great characters and a thrilling story
