OFFICE POLITICS BY SHARON GERLACH PDF

Malaria is nothing a good dose of quinine can't handle. At least that's what software training specialist Frannie Freeman thinks when her vile office manager Malia - aka Malaria - unexpectedly marries their boss, Sam, with whom Frannie has been in love for years. Certain it's only a matter of time before Sam comes to his senses, she hides her heartbreak behind sarcastic humor and copious amounts of tequila.

Exceptional at everything except romantic relationships, Frannie is still waiting two years later. When Sam suddenly confides that he believes he was roofied the night of his surprise Las Vegas wedding, it seems too good to be true. And it isn't long before she realizes that's exactly what it is. A quick little divorce seems the ticket, but Malia's father has other things in mind.

Garland Harper is determined to stop his daughter's downward spiral, and he isn't afraid to use whatever means comes to hand - such as Sam's "saving people" complex. And if that doesn't work - as the CEO of the company for which they work, Harper has sufficient means to make good on his threat that if Sam reneges on his agreement to stay with Malia until she's dry, the only bars Frannie will see for many years won't be offering tequila.

Now, faced with letting Sam go forever or fighting for her heart's desire, Frannie prepares for battle with a woman's three best weapons - a loyal heart, a willingness to fight dirty, and the strongest margarita money can buy.

Great writing style, great plot, great book!!

By Mary Malone

Sharon Gerlach has an amazing wit and it shows in this gripping, funny, flirtatious novel!

Follow Frannie Freeman in her quest for Sam, the man she loves; her corny, quirky office-mates and her wretched supervisor, Malaria.

I enjoyed this book so much, and didn't want it to end. I immediately picked up "The Secret Dreams of Sarah-Jane Quinn" in order to keep up with the offices of Harper and Lyttle.

I adore this book and want to see more from this series! Sharon Gerlach rocks!!

I lol'd...for real

By April H.

I really enjoyed this book. It was definitely Laugh out Loud funny. I spend 40+ hours a week sitting in a cubicle enduring the office politics that seem to be the same in office environments everywhere. My cubicle mates and I enjoyed reading different parts of this book and replacing different characters with our co-workers. Perfect book to ease office boredom :)

Just like any office

By Amazon Customer

First in the Harper & Lyttle series - this is a great book. Recommended by a friend, I was a little skeptical at first. But I absolutely had a hard time putting it down (I had to go to work!). It kept me focused, reminded me of other offices I had worked at (especially the politics) and just kept me laughing. It was great to read a book that had no murders and was definitely not depressing! I loved it so much I got it for my uncle, Mom, and sister. It was so great I immediately bought the next one (the Sarah Jane Quinn) and am definitely looking forward to more in the series. You can't go wrong with this book!!
