It will not bother you to cut your valuable time to opt for buying book in store. In this way, you will certainly likewise spend cash to spend for transportation and also various other time invested.

OUBLIETTE (THE POISONED PAST BOOK 1) BY E.M. PRAZEMAN PDF

Lord Jester Lark

President Rohn Evan's term is in its summer hours, and the war seems far away. Lord Jester Lark's greatest concern involves finding more time to spend with his lover and their adopted daughter.

Then the ships come. A massive fleet opens fire on Perida Bay, and an ambush lies in wait as Lark races home by starlight.

Verai

He's a long way from jeweled, cultured Saphir, among scarred soldiers and rough-handed fishermen who mutter about him being a jester's plaything. But he loves Mark, perhaps too much to leave.

Then the ships come. Verai gathers up little Ellen and rushes to meet his beloved in the safety of the court's protective custody cells.

Mark never arrives.

The Church must uphold the law. The nobility must be honorable, fair, virtuous. The jesters help nobles survive a dangerous and duplicitous world by dealing with problems in ways that their masters can't – at least, not in good conscience. That's the way it's supposed to work, anyway. But the longer Mark wears a jester's mask, the less he trusts the nobility and the Church. Perhaps rightfully so, because when he's ambushed, it's not a jester that wants to take his freedom. It's a creature of royal blood, bred into something inhuman, and it wants his loyalty, his voice, and his soul. As for the Church: It intends to cage him forever.

In addition to reviewing books professionally, I've read well over 3,000 novels just for fun. The sad part is that I can't remember most of them, not because I have a lousy memory but rather because the plots are so similar and the characters so mundane that they all blur together. Fortunately there are a few standout stories that remain unforgettable. This is one of them! Well, to be honest, just about anything from E.M. Prazeman falls into that stellar category. Her world-building, characterization, plots, and pacing are first rate, original, and categorically well worth reading. Enough said; ignore my blatherings and buy the book. You won't be disappointed. — Lawrence Kane, ForeWord Magazine

Great book

By Amazon Customer

I love how the intrigues can be misinterpreted in so many different ways. It's one of the few books that can give a sense of foreboding via two character perspectives while keeping me guessing at the same time. Every character is multidimensional and likable in their own way, regardless of their standing with the protagonist. I'm not sure how I feel about the change in writing style. The style and wording in previous books featuring the lord jesters had an effect of transporting me (since I can't speak for other readers) into an older era of mysticism and courts. This newer style which uses modern day colloquialism provides more vivid descriptions. Either way, the two jester series are a great find. It has the sentimentalism and the plot to keep me hooked. I look forward to book two of The Poisoned Past.

Five Stars

By Amazon Customer

Great book! I love all her books. Just the right amount of subterfuge and smuttiness!
