## PORTRAIT OF A NEW ANGOLA FROM BRAND: SKIRA PDF

The first book of photography that portrays Angola as it exists today. For a place that few can pinpoint on a map or in their minds, Angola is quickly emerging as the most important economic leader in Africa. After almost three decades of civil war, the Angola of today is an anomaly—the country is not only aggressively rebuilding but economically blooming in the midst of a global financial crisis. Having become the number-one producer of oil and third in the diamond sector in all of the sub-Saharan, Angola is the first African country that China has invested in heavily. As a result, in 2008 alone the economy rose 27.5 percent. Still, the world does not know Angola today. We have not seen its diverse and vast landscapes of city and country - corners of the world where expanses of wind-swept white desert meets emerald sea, or forests where lush vegetation gives way to rare butterfly habitats. Nor have we met the Angolan people who speak over 40 dialects, or been introduced to the spirit that moves this beautiful, peaceful and optimistic country. A Portrait of Angola is the first book of photography that portrays the country through 250 photographs and over a dozen works of original fine artwork that marry photography and painting.
