I am the Princess of Ravens, but soon I shall be Queen. I am the keeper of the songs for my people, but soon I must sing the song of the dead for my brother. I am the one the world looks to, but I am also what they fear.

They just don't know it yet.

My enemies play a dangerous game. And soon they will regret their dance with the Raven.

But never have I sung this song for one I loved. ” “I was too young to sing it ...

By Sabrina

“I have sung the Song of the Dead before. As Crown Princess it has been my duty to usher a handful of high ranking puremen with royal blood from this life to the next in formal ceremony. But never have I sung this song for one I loved.”

“I was too young to sing it for my mother. My father sang her song, though how he managed it I will never know. He must have buried his grief deep to make it through that night. And now, I must sing Kai’s.”

She is fire and she is ice. Corrine is a princess not to be reckoned with. Song of Kai proves just that. She does not follow the expectations and rules of a princess who will soon be queen. She follows what she believes is right, not what the lies the court has told her. I find this refreshing because Corrine will become the queen that many will love. She will be the symbol of new change and equality that has been ignored for so long. And now she will aid Nightfall. Scarlett and Corrine will be unstoppable.

Song of Kai is a novella, taking place in between House of Ravens and Daughter of Strife through the eyes of Corrine.

With the book's title, Song of Kai, I must talk about Kai. Kai was a rare character who was thoughtful yet strong, brilliant yet witty, and passionate yet serious. I have to admit, Kai was a very rare character. He embodies all the personalities of what I believe someone should have. Honestly, I started sobbing when I

read that scene involving him and *spoilerly*. I will miss him so much.

A major element this novella discussed was the visions of Corrine's Grandmother had of her and Scarlett. This adds an element of wonder to the world of the Nightfall Chronicles. Scarlett and her uprising has been planned and envisioned and there are powers wanting to see her succeed. But there are other forces, possibly stronger forces, that will want Scarlet and Nightfall to fall.

We also meet Jace. He will have a major impact in the later novels because of his technologies and weaponry that are close to the Nephilim. He may aid Nightfall's cause and be a crucial ally or be an enemy and Corrine may have to decide where her loyalties lie.

This novella is a beautiful addition to the Nightfall Chronicles and I can't wait for Daughter of Strife, the third book of the Nightfall Chronicles

Emotionally Enthralling Read!

By Ali

This is a bridge book after Night of Nyx and before the upcoming Daughter of Strife. You will be emotionally enthralled by this book from the beginning through the end. This book is from Princess Corinne's point of view while they have traveled to London to say goodbye to her brother Kai and for her to sing the Song of the Dead for him. We get to see her world more in depth and how being a Princess hasn't made her who she is. She takes us back to different childhood memories of her, Kai & Wyt and also memories of past events involving her father all of which have molded her into who she has become. Presently we not only see how she handles the grief involved in losing a family member & a friend but also how she handles the threat against her family and the Kingdom they rule. You can easily see how her friendship with Scarlett is growing due to both of them being a lot alike and because of who and what they are willing to stand for. We meet new characters like Pip, Jace and Granny Gertrude. We see characters that we have meet in previous books in the series and now see how some of these characters are more interconnected than we previously knew. After reading this phenomenal book I can't wait to see what happens in the next book in this series the upcoming Daughter of Strife.

My favourite so far

By Ali motherwell

I was given a ARC of the book in exchange for an honest review.

When we first meet Princess Corinne in House of Ravens, she appears to be a polite, friendly girl who plays mostly by the rules, that is so not the case there is a lot more to this girl than meets the eye. At the end of House of Ravens we get a small glimpse of the darker side of Princess Corinne, a princess who will do whatever it takes to save the people and do what she believes is right, Song of Kai continues this theme showing us that Corinne is a force to be reckoned with.

The family returns to their home for Kai's memorial, we get to witness glimpses into their past, memories of child hood shared, some of these memories bring granny into the story an old nurse maid who also doubles as a seer, who knows the truth about Scarlett and Corinne's identity that is just one of the many twists in store for the girls.

Dark truths come out that will make you hate King Varian and the Pope more than you already do.

A new rivalry and love interest develops for our intriguing princess and she faces a challenge she was not

expecting against an enemy whose identity is a complete surprise well at least to me.
