This is easy, read the soft data of the book [The History Of The Ottoman Empire To 1730 By M.A. Cook](#) and also you get it.

THE HISTORY OF THE OTTOMAN EMPIRE TO 1730 BY M.A. COOK PDF

From the historian's perspective, the Ottomans in their heyday could claim a more absolute monarchy than any of the truly European empires, a more successful record in quelling rebellion and the rise of national settlement, and the development and maintenance of more effective lines of communication between the centre and outlying lands. The chapters in this book were each written by a specialist in Ottoman history, and in combination they trace the steps by which the empire built on its fourteenth-century beginnings to the high point of its European power. The emphasis throughout is on the internal history of the empire and its relations with non-European states as well as with Europe; it is no longer possible or desirable to write merely from the point of view of the Western powers.

Most helpful customer reviews

1 of 1 people found the following review helpful.

Ottoman History

By Albert A. Chambers

Excellent succinct history of the Ottomans. This book details the endless border wars, conquests and rulers of the empire. This book has only a couple of maps which detracts from the understanding of the multiple border problems. This book is excerpted from The Cambridge History of the Ottomans.
